President's Message
Mahi L. Ashwath MD, MBA, FACC, FASE, FSCMR

For Iowa ACC Colleagues,

everyone is doing well and staying safe. The COVID pandemic has changed the way we date and also the spectrum of cardiovascular complications we see from it.

Please visit the COVID Hub at https://www.acc.org/covid19 for up to date information.

In addition, while the vaccines have been around for sometime, there continues to be reluctance in taking the vaccine. I would like to bring your attention to the new ACC Healthy Statement on Cardiovascular Disease Considerations for COVID-19 Vaccine Initiation.

Finally, ACC 2021 is now going to be all virtual, in view of the pandemic.

New updates from the Iowa Chapter:
Early Career Activities

I would like to share the wonderful news that Iowa ACC has been awarded a grant for Early Career involvement along with Virginia and Louisiana and will be working on increasing value to Early Career members. If you are an Early Career member (<10 years since graduation) and you have an interest in getting involved with the Iowa ACC, please reach out to me or Ketan Koranne (Iowa ACC Early Career Representative).

Iowa ACC is hosting our first Early Career meeting coming up on March 6th with excellent speakers and topics (https://www.iowaacc.org/EarlyCareer). This will be a small and interactive conference and an attempt to provide interaction and networking with the pandemic restrictions. Please join if you can.

Time: Mar 6, 2021 09:00 AM Central Time (US and Canada)

Join Zoom Meeting
https://uiowa.zoom.us/j/98842137151?pwd=QUJMOWI2TDJxaStZWHl2QjBTRlh6QT09

Meeting ID: 988 4213 7151
Passcode: 989818

Fellow in Training Activities

As we near the end of the term of our current FIT leaders, I would like to thank them for their service and their achievements especially with all the lectures, which was recognized at the recent ACC Leadership and Board of Governors meeting.

I would also like to welcome our new FIT Leadership starting March 20th and look forward to their achievements in their new roles.

Jai Parekh and Kofi Osei - Iowa ACC FIT Co-chairs
Shubha Deep Roy - Social Media Representative
Kurt Bjorkman - Congenital Heart Disease Representative

Women in Cardiology

Females make less than 15% of practicing cardiologists and a much smaller percentage of Interventional cardiologist or Electrophysiologists.

In order to encourage high school girls, Women in Cardiology Iowa ACC Chapter organized an event entirely dedicated for these young, bright students. This event, which was held in the evening of February 15th 2021, brought together inquisitive girls from Iowa-area high-schools and female cardiology fellows, nurse practitioners and
physicians. It was a valuable and interactive hour spent talking about the pathways that led us to medicine, the joys of being a WIC, how to find role models, work-life balance, etc.

On a bigger scale, women in Cardiology around the Midwest have united to provide visible role models, mentorship and to promote women with "SheLooksLikeACardiologist". This event will take place on February 27th from 10:30AM -1PM (EST). Iowa Chapter WIC and FITs have contributed extensively to this program and will be discussing the life style of Cardiac Imagers and Heart Failure Cardiologists lifestyles. Please spread the message and encourage your community High School girls to join this (Registration link here).

As you are aware, Iowa ACC will be hosting the 4th Regional Midwest Women in Cardiology Symposium this summer. Please let me or Rafat Padaria know if you would like to be involved.

And finally, thank you all for staying strong and for all your service to the cardiovascular community during this difficult time.

Mahi
